Tab 46

10/01

Read the entire label and follow directions carefully prior to using. Recommended Use: Take two capsules before breakfast or morning exercise session, and two more capsules at mid-afternoon. Begin use with one-half the **recommended dose (one capsule twice per day)** for the first seven days to **assess your tolerance. DO NOT EXCEED 4 CAPSULES PER DAY.** Please note: This product contains caffeine and salicin (a precursor to aspirin), and should not be taken by individuals wishing to eliminate these ingredients from their diet. *For best results, use as part of a reduced fat diet and exercise program.

Warning: Not intended for use by anyone under the age of 18. Do not use if you are pregnant or nursing. **Consult a physician or licensed health professional before using this product** if you are at risk of, have a family history of, or are being treated for heart disease, high blood pressure, recurrent headaches, liver, thyroid or psychiatric disease, diabetes, pernicious anemia, glaucoma, nervousness, anxiety, depression, seizure disorder, cardiac arrythmia, stroke, pheochromacytoma, difficulty in urination or prostate enlargement. Do not use if you are taking a monoamine oxidase inhibitor (MAOI) (or for two weeks after taking an MAOI) or any other prescription drug containing ephedrine, pseudoephedrine, or phenylpropanolamine (ingredients found in certain allergy, asthma, cough/cold and weight control products). Exceeding recommended serving will not improve results and may cause serious adverse health effects including heart attack and stroke. Discontinue use and call a healthcare professional immediately if you experience rapid heartbeat, dizziness, severe headache, shortness of breath or similar symptoms. Individuals who consume additional caffeine with this product may experience serious adverse health effects. Each serving contains 20 mg of ephedrine alkaloids.

Keep out of the reach of children. Not for use by or sale to individuals under the age of 18
