Tab 48

8/99

Recommended Use: As a dietary supplement, take two capsules before breakfast and two capsules before afternoon meal. *(To use this formula as administered in clinical studies, individuals of higher body weight [particularly those weighing approximately 200 pounds or more] can also take two capsules prior to evening meal).* Begin use with one-half the recommended dose (one capsule two to three times per day) for the first 7 days to assess your tolerance. **Do not exceed 6 capsules per day.** If you have difficulty sleeping, do not take after 4:00 pm. *For best results use as part of a reduced fat diet and exercise program. ***Please note:*** *This product contains caffeine and salicin (a precursor to aspirin), and should not be taken by individuals wishing to eliminate these ingredients from their diet.*

Warning: Do not use if you are pregnant or nursing or if you are at risk of or are being treated for high blood pressure, liver, thyroid, or psychiatric disease, diabetes, pernicious anemia, nervousness, anxiety, depression, seizure disorder, cardiac arrythmias, stroke, pheochromacytoma, or difficulty in urination due to prostate enlargement. Consult your healthcare professional before use if you are taking an MAO inhibitor or any other prescription drug. Discontinue use and consult your health care practitioner if dizziness, sleeplessness, tremors, nervousness, headache or heart palpitations occur.

The maximum recommended dosage of ephedrine for a healthy adult is no more than 100mg. in a 24 hour period for not more than 12 weeks. Improper use of ephedrine may be hazardous to a person's health.

Keep out of the reach of children. Not intended for persons under 18 years of age.
