Subject: UAC separated from parents

Good afternoon Jonathan,

As requested, below is a breakdown of the trends seen in UAC separations from parents as identified by DHS at the time of referral, both this week and across the last few months. I understand from the field that they are discovering more separations that were not reported in the initial referral- I don't have those numbers. Intakes does keep a daily tracking sheet of separations should you need additional details.

We have received 27 separations over the last 7 days. The majority of these referrals seem to be coming from El Paso and Phoenix. For August to date 50% are from El Paso and 27% Phoenix.

The last 7 days	# of UAC parental separations (as known at initial referral)
8/8	1
8/9	8
8/10	6
8/11	1
8/12	1
8/13	2
8/14	8

Month	# UAC separated from Parent	% of total monthly referrals separated from parent	# of separations clearly identified as due to parental immigration history only	% of separations due to immigration history only
April	10	1.5%	3	30%
May	23	2%	3	13%
June	26	1.6%	4	15%
July	44	1.9%	13	30%
8/1- 8/14	37	--	20	54%

Please let me know if there is any additional information I can help provide.

Regards,
