Subject: Metabolife Production

Two points that I wanted to bring to your attention.

1. Product that contains Ephedrine that will be shipped into California requires additional wording on its label beginning with January 1, 2003 production. Chester, is working on these labels at this time and will be advising you of when you need to shift to this label. It would be helpful if you could provide Chester with the current inventory of labels at your facility.

2. Beginning January 1, 2003 all Sensormatic production will require every bottle to contain the Sensormatic strip. Chester will be working with each manufacturer on this requirement.

Thank you for your efforts this year. It has been a tough year but we got through with everyone's help. Here is to a better 2003.

Happy Holidays to you and your staff.
