- The Honorable John D. Dingell
Chairman
Committee on Energy and Commerce
House of Representatives
Washington, D.C. 20515-6115

JUL 24 2007

Dear Mr. Chairman:

Thank you for the letter dated February 16, 2007, co-signed by Joe Barton, Ranking Member, Bart Stupak, Chairman of the Subcommittee on Oversight and Investigations, and Ranking Member Ed Whitfield, to Michael O. Leavitt, Secretary of Health and Human Services, requesting information and documents related to telithromycin (Ketek). Secretary Leavitt asked that the Food and Drug Administration (FDA or the Agency) respond on his behalf. On March 1, 7, 29, April 4, 25, May 17, and July 3, 2007, we sent partial responses. We are sending a further partial response to accommodate the Committee's request in this unique circumstance.

Information contained in the enclosures includes information that is trade secret, commercial confidential or other information protected from disclosure to the public under the Freedom of Information Act (Title 5, *United States Code* [U.S.C.] 552), the Trade Secrets Act (18 U.S.C. 1905), the Privacy Act (5 U.S.C. 552a), and Food and Drug Administration (FDA or the Agency) regulations. The Committee should not publish or otherwise make public any such information. We would be glad to discuss with the Committee staff the protected status of any specific information. As you instructed in your letter, we have redacted the documents to remove patient identifiers.

As has been discussed with Committee staff, we had previously asked for a broader set of Ketek-related documents from the FDA Centers, Office of Commissioner, and the Office of Regulatory Affairs field operations in connection with a similar congressional request. To expedite our response to your request, we are reviewing that set of documents for documents responsive to your request. In cases where there were large numbers of documents containing patient privacy identifiers, we redacted an example of those particular documents and have indicated how much more of that same type of document we have in our files that would be responsive to your request.

We will continue to work with Committee staff on this request, and may provide additional responsive materials to these and other questions if they are identified. A similar letter has been sent to your co-signers without enclosures.
