The Honorable John D. Dingell, Jr.
Chairman
Committee on Energy and Commerce
House of Representatives
Washington, D.C. 20515-6115

MAY 08 2007

Dear Mr. Chairman:

This is in further response to your request for information and documents from the Food and Drug Administration (FDA) relating to the foodborne illness outbreak associated with *Salmonella* in peanut butter. Your staff has confirmed that you are requesting this documentation in your capacity as a Chairman and under the authority of the Committee pursuant to your letter dated January 29, 2007.

Please be advised that these documents contain trade secret, commercial confidential, or other information protected from public disclosure under the Freedom of Information Act (Title 5, United States Code [U.S.C.] section 552), the Trade Secrets Act (Title 18, U.S.C. section 1905), and/or FDA regulations. The Committee should not publish or otherwise make public such information. We would be glad to discuss with the Committee staff the protected status of any specific information. We have made just a few redactions to protect personal privacy.

The documents provided in further response to this request are listed below. These are documents typically included as attachments to an Establishment Inspection Report (EIR) and are not routinely produced in conjunction with requests for EIRs, as most information is also included within the report. We had previously provided the inspection reports but not the attachments. We are now providing the attachments that could be located along with the inspection reports.
