Re: **Fifth Response to May 8, 2008 Letter (International Production)**

Dear Chairman Dingell and Chairman Stupak:

This is a follow-up “rolling” response to your letter of May 8, 2008 in which you requested certain information relating to the safety of food sold in the United States. Our initial responses provided information responsive to your questions for domestic and international production.

In our Fourth Response dated June 13, 2008, we indicated that we would provide supplemental information relating to international production by June 19, 2008. We have completed our review of information provided to us by Nestlé Affiliates and foreign-based co-manufacturers that manufacture products for import and distribution by the U.S. Nestlé Companies. Based on this review, the U.S. Nestlé Companies have no positive test results or other information to report.

Should the Committee require clarification of information in this, or subsequent, submissions, please contact Louise Hilsen (202-756-2491) or Molly Fogarty (202-756-2489) in the Nestlé Washington office.

Sincerely,

Brad Alford
Chairman & CEO
