CC; ANDREW COOPER ESQ

ROBERT'S AMERICAN GOURMET

Honorable John D Dingell Chairman

1. At 8am on June 28th 2007 I received a cell phone call that There would be a conference call at 9:00 am the same day With some government officials, Robert's found out at 9:00 am on Thursday June 28th 9:02 am.
2. According to CDC early in March 2007 a few illnesses Occurred and the CDC began their statistical focus on related Causes or foods, Veggie Booty was one of those foods April more cases, May a lot more cases, June a slowing down Of cases, It wasn't until the CDC had 100% statistical confirmation That they called Robert's American Gourmet, late June 2007. Without any lab tests just interviews from patients about what They ate. Most of the cases were infants who had a limited diet
3. Robert's Was first notified by the FDA on Thursday June 28th at 9:00am
4. No other products were affected just Veggie Booty and Super Veggie Tings
5. list of companies to which Robert's shipped Veggie Booty is attached
6. Wandsworth and typherium salmonella, The source is The Broccoli seasoning from China, confirmed to the plant But not to us.
7. To identify the source for our seasoning and the company that provides it. More testing at different points before production and after production through retention samples.
8. plant info attached
9. plant info attached

Sincerely,

Robert Ehrlich
CEO
Robert's American Gourmet
