

**AMENDMENT**

**OFFERED BY MR. UPTON OF MICHIGAN**

In paragraph (11) of section 610(a) of the Clean Air Act (relating to the Federal renewable electricity standard), as added by section 101, at the end of such paragraph add:

1                   “(E) Any source of electric generation with  
2                   emissions of air pollutants that do not exceed  
3                   those of the emission source listed in any of the  
4                   preceding subparagraphs which has the highest  
5                   emission levels of air pollutants.”
