

March 15, 2006

Dear Members,

The undersigned organizations strongly oppose the Medicaid cuts included in the fiscal year 2005 budget resolution, especially the reconciliation instructions that require the Energy and Commerce Committee to cut entitlement spending. The budget **assumes that the Energy and Commerce Committee will cut Medicaid \$2.2 billion over the next five years**. Such cuts would harm the more than 51 million Americans who rely on Medicaid for their health care lifeline, and reduce reimbursement to critical health care providers.

Medicaid provides health insurance to America's most vulnerable seniors, children, pregnant women, working families, and people with disabilities. Seniors receive prescription drug coverage and long-term care services through Medicaid. Children obtain vital screening and prevention services under Medicaid. Nearly one in ten American women—and one-third of all poor women—rely on the Medicaid program for their health care. Medicaid also provides the crucial services such as long term supports and services and therapy that people with disabilities need.

The states are already facing a major loss in federal Medicaid funds when the temporary increase in the Federal Medical Assistance Percentage expires on June 30th. The states are also facing unexpected new costs in helping to implement the new Medicare prescription drug law. To add any budget cuts on top of these existing strains will create enormous hardship for states and threaten the health security of the Americans who rely on Medicaid for their essential health care services. These cuts would occur as states are beginning to recover from the most severe budget crisis since World War II. States need more, not less, federal Medicaid funding to sustain their current Medicaid programs and avoid greater cutbacks that add to the ranks of the uninsured and further cost shifts to health care providers.

We urge the House to oppose any Medicaid cuts in the fiscal year 2005 budget and to actively work to eliminate the reconciliation instructions requiring these unacceptable cuts. We also ask you to oppose any cuts to Medicaid in the final budget resolution conference report adopted by Congress.

Sincerely,

Advancing Independence
