

21ST CENTURY CURES DISCUSSION DRAFT

Energy and Commerce Committee Chairman Fred Upton (R-MI), Rep. Diana DeGette (D-CO), Health Subcommittee Chairman Joe Pitts (R-PA), Ranking Member Frank Pallone (D-NJ), and Health Subcommittee Ranking Member Gene Green (D-TX)

TITLE I - DISCOVERY

SUBTITLE A- NATIONAL INSTITUTES OF HEALTH FUNDING

SECTION 1001 – NATIONAL INSTITUTES OF HEALTH REAUTHORIZATION

This section would reauthorize the National Institutes of Health (NIH) for three years (Fiscal Year (FY) 2016 through FY 2018).

SECTION 1002 – NIH INNOVATION FUND

This section would establish an innovation fund at NIH for five years (FY 2016 through FY 2020).

SUBTITLE B – NATIONAL INSTITUTES OF HEALTH PLANNING AND ADMINISTRATION

SECTION 1021 – NIH RESEARCH STRATEGIC PLAN

This section would require NIH to issue a strategic plan.

SECTION 1022 – INCREASING ACCOUNTABILITY AT THE NATIONAL INSTITUTES OF HEALTH

This section would increase accountability at NIH, including with respect to the awarding of grants.

SECTION 1023 – BIOMEDICAL RESEARCH WORKING GROUP

This section would establish a working group to provide recommendations on how to streamline the grant process for researchers.

SECTION 1024 – EXEMPTION FOR THE NATIONAL INSTITUTES OF HEALTH FROM THE PAPERWORK REDUCTION ACT REQUIREMENTS

This section would exempt certain NIH research activities from the Paperwork Reduction Act.

SECTION 1025 – NIH TRAVEL

This section would set forth a Sense of Congress to reiterate the importance of scientific conferences and meetings to the mission of NIH.

SECTION 1026 – OTHER TRANSACTIONS AUTHORITY

This section would provide the National Center for Advancing Translational Science (NCATS) at NIH with more flexibility on the use of Other Transaction Authority (OTA) so it can operate like the Defense Advanced Research Projects Agency (DARPA).

SECTION 1027 – NCATS PHASE IIB RESTRICTION

This section would remove a restriction on NCATS' conduct of, or grants for, phase II and III clinical trials.

SECTION 1028 – HIGH-RISK, HIGH REWARD RESEARCH

This section would support research that pursues innovative approaches to major challenges in biomedical research that involve inherent high risk, but have the potential to lead to breakthroughs.

SUBTITLE C – SUPPORTING YOUNG EMERGING SCIENTISTS

SECTION 1041- FUNDING RESEARCH BY EMERGING SCIENTISTS

This section would establish a program at NIH to help young emerging scientists.

SECTION 1042 – IMPROVEMENT OF LOAN REPAYMENT PROGRAMS OF NATIONAL INSTITUTES OF HEALTH

This section would improve loan repayment programs for NIH researchers.

SECTION 1043 – REPORT

This section would require the NIH Director to submit a report to Congress on programs for young emerging scientists at the NIH.

SUBTITLE D – CAPSTONE GRANT PROGRAM

SECTION 1061 – CAPSTONE AWARD

This section would create a capstone grant program to support outstanding scientists who have been funded by the NIH.

SUBTITLE E – PROMOTING PEDIATRIC RESEARCH THROUGH THE NATIONAL INSTITUTES OF HEALTH

SECTION 1081 – NATIONAL PEDIATRIC RESEARCH NETWORK

This section would require NIH to establish a national pediatric research network. It would be

comprised of research institutions that would operate as a consortium in order to pool resources and coordinate activities related to pediatric rare diseases or birth defects.

SECTION 1082 – GLOBAL PEDIATRIC CLINICAL TRIAL NETWORK SENSE OF CONGRESS

This section would set forth a Sense of Congress that NIH and the Food and Drug Administration (FDA) should work with the European Union, industry, and others to establish a global pediatric clinical trial network.

SUBTITLE F – ADVANCEMENT OF NATIONAL INSTITUTES OF HEALTH RESEARCH AND DATA ACCESS

SECTION 1101 – SHARING OF DATA THROUGH NIH-FUNDED RESEARCH

This section would allow the NIH Director to require those whose research is supported by NIH to share their data.

SECTION 1102 – STANDARDIZATION OF DATA IN CLINICAL TRIAL REGISTRY DATA BANK ON ELIGIBILITY FOR CLINICAL TRIALS

This section would enhance patient searches for ongoing trials by requiring NIH to standardize certain patient inclusion and exclusion information across all trials housed in ClinicalTrials.gov.

SUBTITLE G – FACILITATING COLLABORATIVE RESEARCH

SECTION 1121 – CLINICAL TRIAL DATA SYSTEM

This section would create a third party scientific research sharing system for trials solely funded by the federal government in order to allow the use and analysis of data beyond each individual research project.

SECTION 1122 – NATIONAL NEUROLOGICAL DISEASES SURVEILLANCE SYSTEM

This section would require CDC to set up a surveillance system for neurological diseases like Parkinson's Disease and Multiple Sclerosis.

SECTION 1123 – PUBLIC-PRIVATE PARTNERSHIP FOR INFORMATION TECHNOLOGY SYSTEM ON DATA ON NATURAL HISTORY OF DISEASES

The section would establish a public-private partnership to establish or enhance and support an information technology system, including staff ng, to collect, maintain, analyze, and interpret data on the natural history of diseases, with a particular focus on rare diseases.

SECTION 1124 – ACCESSING, SHARING, AND USING HEALTH DATA FOR RESEARCH PURPOSES

This section would require the Secretary to revise several provisions in the Health Insurance

Portability and Accountability Act (HIPAA) Privacy Rule to clarify certain permissible uses of protected health information.

SUBTITLE H – COUNCIL FOR 21ST CENTURY CURES

SECTION 1141 – COUNCIL FOR 21ST CENTURY CURES

This section would establish a public-private partnership to accelerate the discovery, development, and delivery in the United States of innovative cures, treatments, and preventive measures for patients.

TITLE II - DEVELOPMENT

SUBTITLE A – PATIENT-FOCUSED DRUG DEVELOPMENT

SECTION 2001. DEVELOPMENT AND USE OF PATIENT EXPERIENCE DATA TO ENHANCE STRUCTURED RISK-BENEFIT ASSESSMENT FRAMEWORK

Because no one understands a particular condition or disease better than patients living with it, this section would require FDA to establish a structured framework for the meaningful incorporation of patient experience data into the regulatory decision-making process, including the assessment of desired benefits and tolerable risks associated with new treatments.

SUBTITLE B – QUALIFICATION AND USE OF DRUG DEVELOPMENT TOOLS

SECTION 2021 – QUALIFICATION AND USE OF DRUG DEVELOPMENT TOOLS

This section would require FDA to issue guidance that would assist in the development of biomarkers, with input from public-private partnerships, and establish a codified process for qualification of biomarkers and other drug development tools. This section would also provide for transparency and collaboration throughout the guidance development and qualification process.

SECTION 2022 – ACCELERATED APPROVAL DEVELOPMENT PLANS

This section would facilitate early interactions and agreement between sponsors and FDA on designing studies to generate evidence for purposes of accelerated approval.

SUBTITLE C – FDA ADVANCEMENT OF PRECISION MEDICINE

SECTION 2041 – PRECISION MEDICINE GUIDANCE AND OTHER PROGRAMS OF FOOD AND DRUG ADMINISTRATION

This section would require FDA to issue, and periodically update, guidance documents intended to help advance the clinical development of genetically targeted treatments by clarifying how

investigations could be designed to answer specific questions about narrow subpopulations of patients.

SUBTITLE D – MODERN TRIAL DESIGN AND EVIDENCE DEVELOPMENT

SECTION 2061 – BROADER APPLICATION OF BAYESIAN STATISTICS AND ADAPTIVE TRIAL DESIGNS

This section would require FDA to hold a public meeting and issue guidance documents that would assist sponsors in incorporating adaptive designs and Bayesian statistical modeling into their clinical protocols and new drug applications.

SECTION 2062 – UTILIZING EVIDENCE FROM CLINICAL EXPERIENCE

This section would require FDA to establish a program to evaluate the potential use of evidence from clinical experience to help support the approval of a new indication for a drug and to help support or satisfy post-approval study requirements. In parallel, FDA would identify and execute pilot demonstrations to extend existing use of the Sentinel System to support these efforts.

SECTION 2063 – STREAMLINED DATA REVIEW PROGRAM

This section would require FDA to establish a streamlined data review program that would make use of submitted clinical data summaries to support the approval or licensure of specified new indications of drugs and biologics if certain qualifying criteria are met.

SUBTITLE E – EXPEDITING PATIENT ACCESS

SECTION 2081 – SENSE OF CONGRESS

This section would express the support of Congress for FDA’s expedited approval of breakthrough therapies.

SECTIONS 2082-2083 – EXPANDED ACCESS

This section would place transparency requirements on certain drug companies regarding their expanded access programs (programs for patients to access drugs before they are approved) and require FDA to finalize guidance regarding how it interprets and uses adverse drug event data resulting from drug use under such expanded access programs.

SUBTITLE F – FACILITATING DISSEMINATION OF HEALTH CARE ECONOMIC INFORMATION

SECTION 2101 – FACILITATING DISSEMINATION OF HEALTH CARE ECONOMIC INFORMATION

This section would add clarity and facilitate dissemination of health care economic information, as defined in the section, to payers, formulary committees, or other similar entities.

SUBTITLE G – ANTIBIOTIC DRUG DEVELOPMENT

SECTIONS 2121-2123 – ANTIBIOTIC DRUG DEVELOPMENT

Drug resistant bacterial infections are a growing public health threat. Section 2121 builds off of the progress Congress made with the passage of the GAIN Act as a part of the Food and Drug Safety and Innovation Act (FDASIA) in 2012 by facilitating the development of new antibacterial or antifungal drugs through a tailored FDA approval pathway.,Section 2122 streamlines the process by which FDA can clear or approve updates to antimicrobial susceptibility testing devices. Section 2123 provides for higher Medicare payments for certain antimicrobial drugs.

SUBTITLE H – VACCINE ACCESS, CERTAINTY AND INNOVATION

SECTIONS 2141- 2143 – VACCINES

These sections would create and formalize processes for the making of vaccination scheduling recommendations by the advisory committee on immunization practices (ACIP), for CDC review of the ACIP recommendations, and for meetings between CDC and vaccine developers.

SUBTITLE I – REPURPOSING DRUGS FOR SERIOUS AND LIFE-THREATENING DISEASES AND CONDITIONS

This section includes a placeholder.

SUBTITLE J – DOMESTIC MANUFACTURING AND EXPORT EFFICIENCIES

SECTION 2161 – GRANTS FOR STUDYING THE PROCESS OF CONTINUOUS DRUG MANUFACTURING

This section would allow FDA to award grants to higher education and non-profit organizations to study and recommend improvements to the process of continuous manufacturing, and other similar innovative monitoring and control techniques, of drugs and biologics.

SECTION 2162 – RE-EXPORTATION AMONG MEMBERS FOR THE EUROPEAN ECONOMIC AREA

This section would allow U.S. pharmaceutical manufacturers to export controlled substances from a second country as European pharmaceutical companies are allowed to do. Currently, U.S. pharmaceutical manufacturers are prohibited from re-exporting controlled substances from any second country.

SUBTITLE K – PRIORITY REVIEW FOR BREAKTHROUGH DEVICES

SECTION 2181 – PRIORITY REVIEW FOR BREAKTHROUGH DEVICES

In order to provide for more effective treatment or diagnosis of life-threatening or irreversibly debilitating diseases or conditions, this section would require FDA to establish a priority review program for certain breakthrough medical devices technologies.

SUBTITLE L – MEDICAL DEVICE REGULATORY PROCESS IMPROVEMENTS

SECTION 2201 – THIRD-PARTY QUALITY SYSTEM ASSESSMENT

This section includes a placeholder

SECTION 2202 – VALID-SCIENTIFIC EVIDENCE

This section would clarify that, in the context of FDA evaluation of medical devices, valid scientific evidence may include registry data, studies published in peer-review journals, and data collected in countries other than the United States so long as certain criteria are met.

SECTION 2203 – TRAINING AND OVERSIGHT IN LEAST-BURDENSOME MEANS CONCEPT

This section would ensure that each FDA employee involved in the review of medical device submissions receives adequate training in the meaning and implementation of the least burdensome means concept.

SECTION 2204 – RECOGNITION OF STANDARDS

This section would establish a clear process at FDA for the submission, review, and recognition of standards established by a nationally or internationally recognized standard organization for purposes of medical device review.

SECTION 2205 – NOTIFICATION OF MARKETING OF CERTAIN CLASS I DEVICES

This section includes a placeholder.

SECTION 2206 – ADVISORY COMMITTEE PROCESS

This section would improve the medical device classification panel review process at FDA to ensure adequate expertise among panel members to assess the device, allow for presentation by the device sponsor to the panel, among other things.

SECTION 2207 – HUMANITARIAN DEVICE EXEMPTION APPLICATION

This section would provide FDA with the authority to apply the humanitarian device exemption to diseases and conditions that affect up to 8,000 individuals in the United States.

SECTION 2208 – CLIA WAIVER STUDY DESIGN GUIDANCE FOR IN VITRO DIAGNOSTICS

This section would require FDA to issue guidance clarifying CLIA waiver study design.

SUBTITLE M– SENSIBLE OVERSIGHT FOR TECHNOLOGY WHICH ADVANCES REGULATORY EFFICIENCY

SECTIONS 2221-2223 - SOFTWARE

Technological innovation around health software and wireless platforms such as smartphones hold great promise for our 21st century health care system. However, there are concerns related to the current regulatory approach for health technologies. Sections 2221-2223 are intended to support further development in this field by updating the regulatory laws around software and creating clarity for developers and reviewers alike.

SUBTITLE N– STREAMLINING CLINICAL TRIALS

SECTION 2241 – PROTECTION OF HUMAN SUBJECTS IN RESEARCH; APPLICABILITY OF RULES

This section would exempt clinical trials that are subject to the comprehensive human subject regulations under the Federal Food Drug and Cosmetic Act (FFDCA) from requirements under the Common Rule. Further, this section would streamline the institutional review board (IRB) process for trials that are being conducted at multiple sites.

SECTION 2242 – USE OF NON-LOCAL INSTITUTIONAL REVIEW BOARDS FOR REVIEW OF INVESTIGATIONAL DEVICE EXEMPTIONS AND HUMAN DEVICE EXEMPTIONS

This section would remove the limitation on the use of central IRBs in medical device trials.

SECTION 2243 – ALTERATION OR WAIVER OF INFORMED CONSENT FOR CLINICAL INVESTIGATIONS

This section would amend certain provisions governing the informed consent process for enrolling patients in medical device tests that poses no more than minimal risk and include appropriate safeguards to protect the rights, safety, and welfare of the participants.

SUBTITLE O – IMPROVING SCIENTIFIC EXPERTISE AND OUTREACH AT FDA

SECTION 2261 – SILVIO O. CONTE SENIOR BIOMEDICAL RESEARCH INSTITUTE

This section would enable the FDA to hire more efficiently and ensure that the agency has the staff required to ensure they keep up with the pace of innovation.

SECTION 2262 – ENCOURAGING SCIENTIFIC EXCHANGE AT THE FDA

This section expresses Congressional support for eliminating barriers that prevent agency staff from attending scientific conferences and meetings. Allowing staff travel for their continued training and education will help the agency keep pace with the latest scientific developments.

SECTION 2263 – REAGAN UDALL FOUNDATION

This section would ensure that the Reagan Udall Foundation has access to the expertise and human capital it needs to fulfill its statutory mission of advancing FDA’s scientific priorities.

Section 2264 – Collection of Certain voluntary Information Exempted from Paperwork Reduction Act

This section would exempt the FDA from the Paperwork Reduction Act with respect to the collection from patients, industry, academia and other stakeholders of voluntary information through voluntary surveys and questionnaires. This will enable FDA to more easily and efficiently receive patient input.

TITLE III - DELIVERY

SUBTITLE A – INTEROPERABILITY

SECTION 3001 – INTEROPERABILITY

As evidenced by statements from numerous 21st Century Cures roundtable participants, the ability to share research and clinical data is a key cornerstone of our drive for new cures. The Office of the National Coordinator (ONC) has led the charge but recently has identified barriers to nationwide interoperability of health technology. Congress continues to work with the administration and stakeholders on solutions to the problems in this area and expects to share more details of these efforts in the very near future.

SUBTITLE B – TELEMEDICINE

SECTIONS 3021 – TELEMEDICINE

The Energy and Commerce Bipartisan Telemedicine Member Working Group has been working to find a solution that has plagued Congress and our health system for decades: how to adopt new technologies into our delivery system in ways that promote greater quality care and fiscal integrity. The Working Group continues to work toward a permanent solution, and the committee supports these efforts and expects to share more details of these efforts in the near future.

SUBTITLE C – ENCOURAGING CONTINUING MEDICAL EDUCATION FOR PHYSICIANS

SECTION 3041 – EXEMPTION FROM MANUFACTURER TRANSPARENCY REPORTING CERTAIN TRANSFERS USED FOR EDUCATION PURPOSES

This section would exempt certain transfers of value to physicians from reporting requirements that have hindered physician participation in important continuing medical education activities.

SUBTITLE D – DISPOSABLE MEDICAL TECHNOLOGIES

SECTION 3061 – COVERAGE OF DISPOSABLE MEDICAL TECHNOLOGIES IN THE HOME

Today, seniors who receive their care in a home setting are not able to access certain services afforded others because of the nature of the DME payment system. The committee believes that this needs to change and is currently working with the administration on a solution.

SUBTITLE E– LOCAL COVERAGE DECISION REFORMS

SECTION 3081 – IMPROVEMENTS IN THE MEDICARE LCD PROCESS

The local coverage determination (LCD) process is an important means by which seniors can access treatments that would otherwise not be covered by Medicare due to the length of time it takes for the national process to conclude its work. However, improvements are needed. Section 3061 would increase transparency around the LCD process.

SUBTITLE F – MEDICARE PHARMACEUTICAL AND TECHNOLOGY OMBUDSMAN

SECTION 3101: MEDICARE PHARMACEUTICAL AND TECHNOLOGY OMBUDSMAN

This section would create a new technology ombudsman within Medicare to address problems relating to coverage of new and life saving technologies.

SUBTITLE G – MEDICARE SITE-OF-SERVICE PRICE TRANSPARENCY

SECTION 3131 – MEDICARE SITE-OF-SERVICE TRANSPARENCY

The Medicare benefit currently pays varying rates for the same services depending on where they are delivered. Seniors' out of pocket costs can be higher or lower for a given procedure based upon where the service is provided. This section would give seniors the ability to shop among various sites of service for certain services so that they can identify the most cost-effective treatment.

SUBTITLE H – MEDICARE PART D PATIENT SAFETY AND DRUG ABUSE PREVENTION

SECTION 3151 – MEDICARE PART D DRUG ABUSE PREVENTION PROGRAM

The section would create programs and solutions that seek to end drug abuse and fraudulent behaviors that cost the Medicare program billions.
