February 10, 2015

United States House of Representatives
Washington, D.C. 20515

Dear Representative:

I am again writing to express the strong support of the International Brotherhood of Teamsters for the Keystone XL (KXL) Pipeline. This week the House will have the opportunity to end the delay and to move forward with the construction of the KXL Pipeline when it considers S. 1, the Keystone Pipeline Act. The Teamsters Union continues to believe that the KXL pipeline will contribute to enhanced energy security, economic prosperity and, of critical importance, the creation of good paying jobs for the construction workforce and related industries.

If the pipeline is not built, important socio-economic benefits will not be realized – the positive impacts on local, state and federal revenue, spending by construction workers, and spending on construction goods and services. Building the KXL Pipeline will enhance U.S. energy and economic security. The Teamsters Union urges a yes vote on S. 1, the Keystone Pipeline Act.

Sincerely,

James P. Hoffa
General President
