Dear Chairman Upton and Congressman Johnson,

On behalf of more than seven million senior citizen activists, the 60 Plus Association strongly supports H.R. 351, LNG Permitting Certainty and Transparency Act.

We thank Congressman Johnson for introducing legislation that will help to expedite the approval of U.S. liquefied natural gas (LNG) export projects as well as strengthen our economy and create jobs here at home. This legislation also helps to eliminate the unnecessary and burdensome delays that have held up construction of LNG projects.

For far too long seniors have witnessed an increased reliance upon foreign energy sources that threaten our national security in an economy that continues to struggle with recovery. Thanks to Congressman Johnson and the strong leadership of Chairman Upton this legislation can change this and create high-paying American jobs with domestic energy producers and manufacturers while also strengthening our relationship with our trading partners who may otherwise seek supplies from other exporters.

Again, thank you both for your leadership and 60 Plus whole-heartedly believes that the time is now to fix these regulatory deficiencies.

Sincerely,

James L. Martin
Chairman
