Secretary and General Counsel

Biography

Jeffery J. DREES

U.S. Country President, Schneider Electric

Jeff Drees has over 20 years of experience in engineering, sales and operational leadership. His commitment to customer service is built on his philosophy of building “clients for life” and he is a passionate advocate for solving the world’s energy dilemma.

In 2010, Jeff was named U.S. Country President for Schneider Electric, assuming responsibility for growth and profitability of the Power, Buildings and Energy businesses in the United States, along with driving energy efficiency and solutions initiatives across the North American territory.

Jeff joined Schneider Electric in 2001, serving most recently as President of the Buildings Business in the Americas and Executive Vice President of Buildings Business Global. During his tenure, he has held several positions including Vice President of Sales for the Energy Solutions Business, Vice President of Systems Integration, Vice President of the Partners division, and Vice President of International Business. Prior to joining Schneider Electric, he held management and engineering positions at Caterpillar Inc., Honeywell Inc. and served in the U.S. Air Force.

Jeff is a member of the Alliance to Save Energy board, the National Association of Manufacturers board, the Schneider Electric Data Center Solutions board and participates in thought leadership panels for the Alliance to Save Energy and the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE). He also participates with the Institute of Electrical and Electronics Engineers (IEEE) and Texas AM in developing student leadership seminars and curriculum; and teaches leadership and character development to local 7th and 8th grade students. In addition, he is a member of the Allen Texas Community Leaders for Crown Financial, a group aimed at helping local families eradicate more than \$100 million of debt.

Jeff has a bachelor’s degree from Southern Illinois University and a master’s degree from Aurora University. He resides in the Dallas area.

About Schneider Electric

As a global specialist in energy management with operations in more than 100 countries, Schneider Electric offers integrated solutions across multiple market segments, including leadership positions in energy and infrastructure, industrial processes, building automation, and data centers/networks, as well as a broad presence in residential applications. Focused on making energy safe, reliable, and efficient, the company's 100,000+ employees achieved sales of more than \$22 billion in 2009, through an active commitment to help individuals and organizations “Make the most of their energy”.
