My suggestion would be to let him review the language, and then offer him a call to walk through what we think the major changes are (and if ASPE wants to do it, great) and then have him talk to CBO.

Ok I didn't know what rick foster knew. If he didn't know new changes to class act we can have aspe folks explain to him. Would that work?

I think we should have someone walk rick through the changes connie is contemplating before we set something up with him and cbo, no?

Hi Jon and Amy,

As you know there has been some concern with Rick Foster that CLASS Act is not actuarially sound. Connie at HELP has done a lot of work changing the program and per CBO it is now actuarially sound. Can we get Rick on the phone with the person at CBO who has been doing this work to discuss? Connie has given the OK. Please let me know and I will arrange. Thanks.
