Categories: CLASS Act Oversight Request

Hate to tell you but I am almost certain that we did not do this. I really thin most of the administrative costs would be in doing eligibility determinations and payments split with nursing homes and waivers, however, I think little of it is really ours versus the states.

To my knowledge – no. But, carey is much closer to this than I so let's see if anyone talked to her.

I understand that your request is for potential implementation costs for CMS.

Carey and Melissa,

Have you been asked to determine what it would cost to implement the Medicaid related provisions, assuming that the program itself would NOT be administered by CMS?

Subject: RE: CLASS

I am looking for any updates to internal estimates for any administrative work that may need to be completed by CMS.

Hi Teresa,

I don't know what you mean by refined estimates. I only have what CBO scored for the House-passed and Senate-passed bills.

Heather Tompkins was a workgroup participant representing ASFR and I've copied her here.

Best,

Jill

Subject: CLASS

Jill/Melissa,

I have you listed as contacts for a healthcare reform workgroup for CLASS. I am not sure if the workgroups are still meeting; however the Department is looking for "refined" estimates. Can you send me your last or latest estimates? Please call if you have questions.

Thanks,

Teresa Krause
